Evaluations

### REMAKE POLICY

When it is necessary to remake a case, Klepacki Dental Laboratory will gladly do so at no charge, when the error has been made by KDL. When the error is questionable (i.e., a framework that fits the model and not the mouth) we reserve the right to split the laboratory fee for the remake with the dentist.

If the dentist has been contacted prior to fabrication, and advised of a possible complication (i.e., inaccurate impression) and the dentist authorizes the work to be completed, the dentist assumes all responsibility for all laboratory fees.

A working day is an 8 hour segment of time, not counting holidays, weekends, or non-business hours. We understand the need for rushed services, so please feel free to call us if the need arises. Do not request work to be returned on the same day the patient is scheduled. We will deliver the case sometime during the business day of the date written on the laboratory prescription (work order). Communication between our offices is greatly encouraged. Confirming our schedules reduces wasted appointments and poor restorations due to rushed work.

Your satisfaction with KLEPACKI DENTAL LABORATORY, LTD. Is our  
"Primary Directive"!
